

# Nutrition Software

**Q.** Can you name the only high-end nutrition software package that can track and graph your client's body fat content as well as body weight?

**A.** **NutriBase IV** (of course).

Many experts agree that the best way to achieve ideal body weight is not by consulting one of the many "Ideal Weight Charts," but by achieving a desirable body fat content for your age and gender.

NutriBase is the only high-end nutrition and fitness software designed to track and graph body fat content to help your clients reach their ideal body weight. This unique ability makes NutriBase the logical companion to a wide variety of body fat measurement devices.

For 150 more compelling reasons why NutriBase is the most powerful software of its kind, visit us today at: [www.nutribase.com](http://www.nutribase.com)
